

## Solder Wire Holder Stand – TJ-227

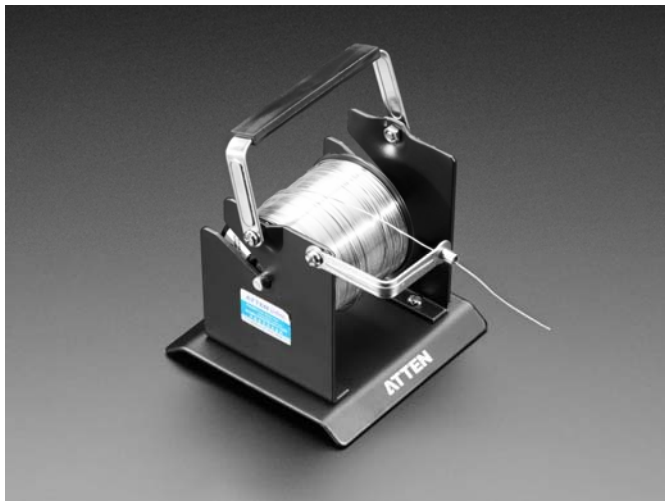

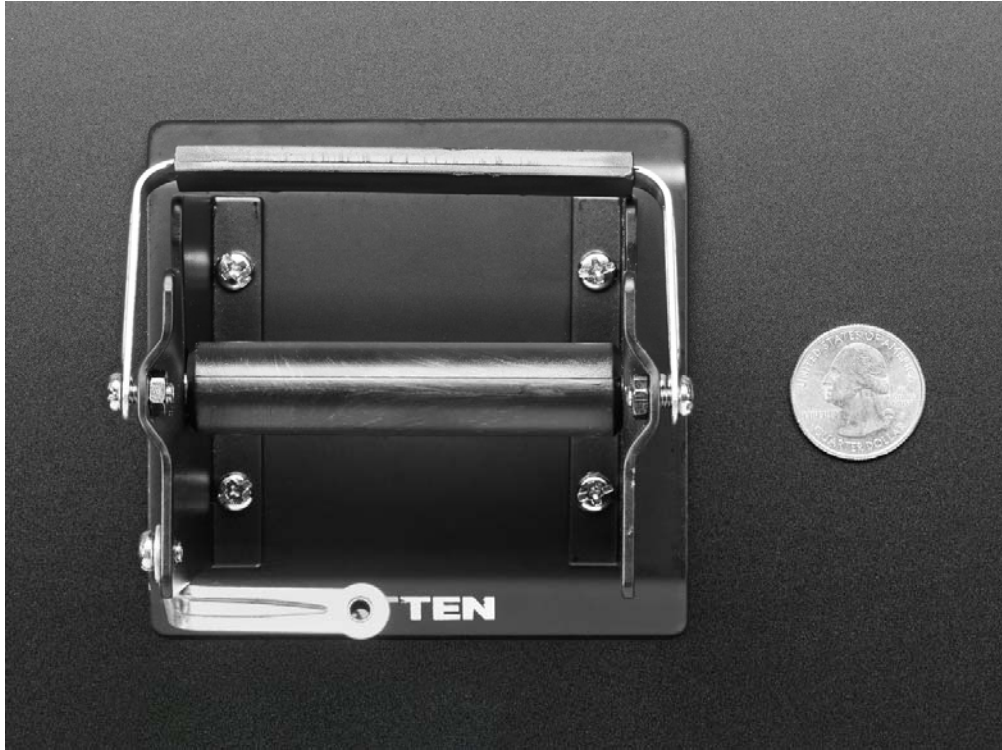

PRODUCT ID: 4406

This portable, minimalist solder wire stand is so handy, we had to carry it in the shop. It comes as a solid metal frame that's not too heavy and (best of all) a solder roll holder that keeps your wire from getting tangled! The roll holder can support up to 1kg of solder wire.

Doesn't include a soldering iron or solder! We also carry a solder stand that holds both your iron and solder roll.
