

UR-Series

UL1077 Recognized Supplementary Protector

- DIN Rail Mounted
- 17.5mm width per pole
- Thermal Magnetic
- 480Y/277V AC, 50/60Hz
- 10kA Short Circuit Withstand Capacity
- Applications (on the load side of Branch Circuit Protection) include: Sensitive Electronics, Power Supplies, Appliance circuits, etc.

UR - Series	
Voltage Rating	480Y/ 277 VAC
Short Circuit Withstand Rating	0.5 - 10A (RC): 10 kA with no back-up fuse 8 - 63A (RC): 10 kA with UL-listed Class J back-up fuse; 5 kA with no back-up fuse
Calibration Temperature	30°C (86°F)
Ambient Temperature	-25°C to +55°C (-13°F to 131°F)
Storage Temperature	-40°C to +70°C (-40°F to 158°F)
Terminal Torque	max. 2.5Nm (22.2 lb.in)
Electrical Life	6000 switching cycles ON/ OFF
Mechanical Life	10000 switching cycles ON/ OFF
Vibration Resistance	> 15g according to DIN EN 60069-2-59 during a load with 1.05 x I _N
Resistance to mechanical shocks	25g @ 11ms

short circuit Withstand Ratings for UR-series supplementary protector

Trip Curve	Amp Range	Backup Protection	
		UL-Listed Class J Fuse up to 10kA	No Backup Fuse Required up to:
All	0.3 - 10A	70A	10kA
All	12 - 60A	4xRC*	5kA

Application Overview

Trip-Characteristics*				Applications					
Characteristic Trip Boundaries				Lighting Wiring Protection Control Circuits	Business Equipment Appliances	Control Transformers	Power Supplies	General Electronics	Reactive Load
Thermal Trip		Magnetic Trip							
Must not Trip >100ms	Must Trip <1hr	Must not Trip >100ms	Must Trip at 100ms						
B-Characteristics									
1.13xRC	1.45xRC	3xRC	5xRC						
C-Characteristics									
1.13xRC	1.45xRC	5xRC	10xRC						
D-Characteristics									
1.13xRC	1.45xRC	10xRC	20xRC						

*The value of each characteristic is shown vertically beneath its corresponding heading.

Warning!

This information should only be used as a selection guide. The use of a Miniature Circuit Breaker/Supplementary Protector in an application with a certain Trip-Characteristic always requires prototype testing! It is the responsibility of the circuit design engineer to select the appropriate Miniature Circuit Breaker/Supplementary Protector for his specific application.

UL I 077

UR - Series B-Trip Characteristic

Application Examples:

Business equipment, wiring protection, lighting, appliances, control circuits, some motors and some electronic applications. Relatively long thermal trip delay but low magnetic trip point.

One Pole

Standard Pack: 12

Weight:

0.3A - 32A

1.75kg (3.86 lb.)

40A - 63A

2.07kg (4.56 lb.)

Mounting Instructions for UL489, UL508 and UL1077 Accessories

Neutral / Shunt Trip plus possibly Auxiliary Contact

1. Neutral Poles N63UM, N32UL, N63UL or Shunt Trips FA..UM, FA..UL can be mounted on right or left side of device.
2. Bring blue knob of all devices into "OFF" position.
3. Remove grey cover from the switching device and attachment.
4. Insert drive plate between switching device and Neutral Poles N63UM, N32UL, N63UL or Shunt Trips FA..UM, FA..UL.
5. Insert connecting pin into knob.
6. Combine switching device and Neutral Poles N63UM, N32UL, N63UL or Shunt Trips FA..UM, FL..UL.
7. Screw device together.
8. Possibility of mounting Auxiliary contact H...UM, H...UL additionally on the right only, different screw type (see E983419 accessories) necessary.

Auxiliary Contact

1. Auxiliary can be mounted on right side of device only.
2. Bring blue knob of both devices into "OFF" position.
3. Remove grey cover from switching device.
4. Combine switching device and Auxiliary Contact H...UM, H...UL.
5. Insert connection screws and connect the two devices by turning the screws by 90°.
6. After mounting close and open to check operation.
