**Tough**

# Excellent Visibility and Environmental Resistance

High visibility display even in bright environments, it's also compact.  
Introducing a new product line in the Tough Series with excellent environmental resistance

# New Models Added to the GT **Tough** Series GT03-E Compact Models Debut!

3.5 inch  
GT03T-E (Actual size)

5.7 inch  
GT32T-E (Actual size)

\* The LCD picture on this page is simulated images.

- 20 to +60°C**  
**-4 to +140°F**  
**The wide operating temperature range allows for use in various environments.**  
 (-20 to +55 °C -4 to +131 °F when horizontally installed, vertically installed in a portrait orientation and when using battery)
- UV Reduction**  
**Resistant to UV Rays!**  
 The two-layer front protection sheet deduces UV rays in two-stage.
- IP67**  
**High waterproof performance allows for use in environments exposed to splashing water.**  
 The front panel has a protective structure rated IP67.
- Low power consumption**  
**Color type (GT03T-E): 3.1 W or less**  
**Monochrome type (GT03M-E): 1.9 W or less**

- Improved visibility**  
**High visibility display even in bright environments!**  
 High in brightness and contrast and anti-glare coating provides exceptional viewing characteristics. Monochrome type uses a TFT LCD that's bright and uses deep black for great visibility.
- High-definition**  
**Same resolution [320 (W) × 240 (H) dots] as the 5.7 inch model (GT32-E)**  
 Screen data of GT32-E can be used on the smaller display.
- Industry's smallest**  
**The industry's smallest class\* body among 3.5 inch screen**  
 \*Based on research conducted by our company as of June, 2013

See page 4 for details. ▶

## Superior visibility even in sunlight

### Color type

Tough series GT32T-E

Conventional model GT32T

### Monochrome type

Tough series GT32M-E

Conventional model GT32M

- **High contrast TFT LCD:** Achieved higher contrast and visibility.
- **High brightness backlight:** Achieved greater brightness and visibility than the conventional model.

The monochrome type, in particular, is greater brightness than the conventional model and is way easier to view in bright environments thanks to the “deep black”.

## Anti-glare, High visibility display

- **A front protection layer has an anti-glare coating to prevent unwanted reflections**  
(Fingerprints are made less noticeable even in outdoor use)

Anti-glare front coating

No anti-glare front coating

### Comparison of reflection

Tough series GT32T-E

Conventional model GT32T

## No risk of product deterioration due to UV exposure

- The front sheet is made of a material that does not transmit UV rays.
- A combination of a UV cutting layer and a UV absorbing layer performs two-stage UV blocking.  
The LCD and touch panel can be protected from deterioration.

### UV ray transmittance performance

## Excellent water resistance

- The front panel has a protective structure rated IP67.  
Safe to use outdoors or in a location exposed to splashing water.
- Added protection has been applied to the rear of the unit for a more rugged overall construction.

## Wide operating temperature range

- Usable in a range of -20 to +60 °C **-4 to +140 °F**  
(-20 to +55 °C **-4 to +131 °F** when horizontally installed, vertically installed in a portrait orientation and when using battery)
- The TFT LCD can quickly switch screens even at a low temperature.
- The life of the LED backlight does not decrease even at a low power consumption.
- It is not necessary to prepare a heater for use at a low temperature.

## Reduced power consumption

- Compact color type (GT03T-E): 3.1 W or less
- Compact monochrome type (GT03M-E): 1.9 W or less
- Color type (GT32T-E): 7.2 W or less
- Monochrome type (GT32M-E): 4.8 W or less

# GT03-E

Programmable Display

The industry's smallest class\*1 body among 3.5 inch screen  
Color display uses 3.1 W or less for low power consumption!  
Use of 3.5 inch TFT monochrome LCD is an industry first\*1!

3.5 inch CE UL US

Tough series

GT03T-E

GT03M-E

## GT03T-E

**3.5 inch, 4,096 colors TFT color LCD equipped with long life LED backlight**

**Built-in SD / SDHC memory card slot** \*2

Easy to copy, back up, and restore screen data.

## GT03M-E

**3.5 inch, 16-gray scale TFT monochrome LCD equipped with long life LED backlight**

Through use of a TFT LCD with contrast ratio of 1,000 : 1, the "deep black" on a bright display means incredible visibility even in bright environments.

### Common features

**Superior visibility even in sunlight**

The brightness and contrast ratio have been improved.

**Wide range of operating temperature that covers outdoor use**

The improved environmental resistance allows for use in a wider operating temperature range of -20 to +60 °C **-4 to +140 °F**.

**UV resistant, anti-glare front panel**

A front protection layer reduces the intensity of UV rays and has an anti-glare coating.

**Impressive water resistance makes usage possible in areas prone to water contact.**

The front panel is IP67 rated with added protection applied to the rear of the unit for a more rugged overall construction.

**Integrated USB Interface**

You can connect your PC and **GT03-E** using your USB cable to transfer screen data. When used with our **FP series PLC**, this display supports the pass through function, which allows simultaneous debugging of the PLC and the display

\*1: Based on research conducted by our company as of June, 2013

\*2: Class 10 compatible with a card of up to 32 GB.

128.8 mm  
5.071 in

## 5.7 inch, 4,096 colors TFT color LCD equipped with long life LED backlight

Great visibility even in bright environments is possible thanks to use of a TFT LCD with contrast ratio of 500 : 1.

GT32M-E

## 5.7 inch, 16-gray scale TFT monochrome LCD equipped with long life LED backlight

Through use of a TFT LCD with contrast ratio of 400 : 1, the "deep black" on a bright display means incredible visibility even in bright environments.

### Common features

#### Superior visibility even in sunlight

The brightness, contrast ratio, and viewing angle have been improved.

#### Wide range of operating temperature that covers outdoor use

The improved environmental resistance allows for use in a wider operating temperature range of -20 to +60 °C -4 to +140 °F.

#### UV Resistant, Anti-glare front panel

A front protection layer reduces the intensity of UV rays and has an anti-glare coating.

#### Impressive water resistance makes usage possible in areas prone to water contact.

The front panel is IP67 rated with added protection applied to the rear of the unit for a more rugged overall construction.

#### Built-in SD / SDHC memory card slot \*1

Easy to copy, back up, and restore screen data.

#### Integrated USB Interface

You can connect your PC and GT32-E using your USB cable to transfer screen data.

When used with our FP series PLC, this display supports the pass through function, which allows simultaneous debugging of the PLC and the display

#### Transformer-isolated power supply

The isolated power supply enhances the reliability.

-GT32M-E -GT32T-E

\*1: Class 10 compatible with a card of up to 32 GB.

# SD Solutions only Panasonic can provide

## Links and expansion via SD

As small-size touch panels have significantly improved their image quality, easy to read displays with sharp characters are no longer special features these days. Instead, programmable displays will evolve with maximum "user-friendliness" in various applications with PCs or other devices.

As shown below, our touch panels exchange and store data using SD memory card, data for many applications.

### Links via SD

- ▶▶ SD recipe function (Data table management)
- ▶▶ Transfer of PLC program data

### Expansion via SD

- ▶▶ Saving alarm history data on an SD
- ▶▶ Logging function
- ▶▶ Display of graphs of stored data

## PLC program transfer without the use of a PC

\* Our FP series, excluding FP7.

It is possible to modify PLC ladder programs as well as the GT screen programs by using an SD / SDHC memory card. SD / SDHC memory card enables everyone to easily modify programs.

## SD card data transfer function

Log and other data saved on a SD memory card inserted into the GT's onboard SD memory card slot can now be sent to a PC using a USB connection.

Installation on the PC of GT\_SD\_Reader software is required. This software is installed simultaneously with Terminal GTWIN (Ver. 2.E1 and higher). The GT unit firmware must be a version that supports this function. If you are using a version that does not support this function, please upgrade by downloading it from our website.

## SD logging function to produce data "Visualization"

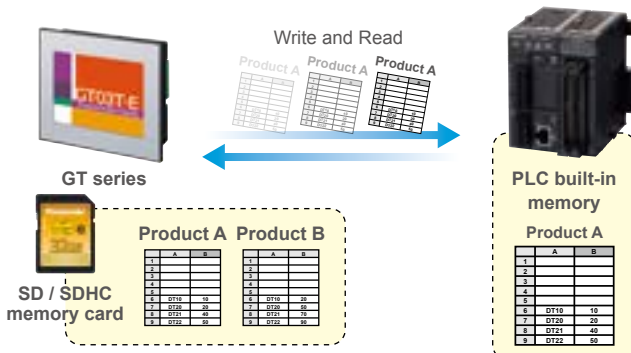

Capable of automatically collecting electrical power readings of Eco-POWER METERS and displaying them in a real time graph, allowing users to take quick actions for solutions.

- The GT unit can collect data, such as electrical power on an SD / SDHC memory card, and display the log data in a real time graph. You can make data "Visualization" without using a PC as a display or Data logger for collecting data.
- One bar graph has a maximum of eight bars and can be combined with line graphs.
- The following three conditions can be selected to trigger an operation to save log data.
  - (1) Specified time
  - (2) Specified cycle (1 sec. to 24 hrs.)
  - (3) Specified condition
- Large volumes of data can be saved on an SD / SDHC memory card, which can be carried with you.

## SD recipe function

For high-mix production, recipe data up to 64 types and 4,096 devices in total, can be easily set on a PC. The created recipe data is saved on an SD / SDHC memory card, and the specified data can be written or read from a PLC.

## Saving alarm history data on an SD / SDHC memory card

The alarm history data stored in the GT built-in memory can be saved on an SD / SDHC memory card, making it possible to easily control problems on a PC.

• The LCD images on this page are composites.

# High Visibility and Excellent Operability

**Three-color LED backlight allows for checking machine status at a glance**  
(GT02M / GT02G, GT05M / GT05G, GT12M / GT12G)

The monochrome display\* has a three-color LED backlight. It allows operators to check the equipment status at a glance by changing the background color.

Example: green under normal conditions, orange during operation, and red in emergency situations.

\* Excluding GT03M-E, GT32M-E, GT32M and GT02L

GT05G

(Normal)

GT12G

(In operation)

GT02G

(Emergency)

## Highly flexible screen design!

GT series displays use an analog-touch panel where locations of parts and characters can be adjusted in increments of one dot. The adoption of the Windows® font has widened the character size selection (10 to 240 dots), making the screen design more flexible. \*The maximum size varies depending on the model.

### “Analog-touch design”

### “TrueType fonts”

The adoption of the Windows® font has made it possible to choose a font focusing on the screen image and visual quality.

## Graph function

One bar graph has a maximum of eight bars and can be combined with line graphs.

## Flow display function

A flowing message of up to 64 characters (two-byte) can be displayed at the bottom of the screen. (128 messages)

## Error warning by voice messages (GT32T1)

Voice messages or melodies immediately communicate the equipment status to operators not located near the equipment. The sound files are compatible with WAV format, which can be easily prepared by a PC.

GT32T1

## Portrait display ideal for narrow spaces

The unit can display screens in portrait orientation and can therefore be installed in narrow spaces, expanding system design possibilities and contributing to size reduction. The portrait display is also ideal for slim equipment without enough space to install a display.

## Multi-function switches

Multiple operations are possible. For example, screens can be switched by setting multiple values.

## 4,096-color parts libraries

(GT05S, GT32T, GT03T-E and GT32T-E)

3D-design buttons with higher visibility and operability are available.

● The LCD images on this page are composites.

# Advanced Functions to Enhance Work Efficiency

## FP monitoring function (FP2SH, FP0R, FP-Σ, FP-X, FP-X0, FP-e, FP0 and FP2)

\*Excluding FP7

### Five convenient features of GT series for improved compatibility with our FP series of PLCs

#### 1 Device monitor (Display and change values of FP series devices. Three different modes available)

- (1) Easy monitor mode: Use this mode when you want to monitor something. Display is continuous when one device is specified and the device can be changed.
- (2) Entry monitor mode: Use this mode when you want to monitor multiple devices. You can register devices you want to display one-by-one and you can change them.
- (3) Forced on / off mode: Use this mode feature to forcibly turn output on and off. You can set devices one-by-one for which you want to control output.

#### 2 System register monitor (Display and change of system register values.)

You can specify the system register number, display the value, and change it.

#### 3 Shared memory monitor (Display shared memory values.)

You can specify the slot number, bank number and address, and display the value. You cannot change the value.

#### 4 Error monitor (Display an error occurring in the FP series PLC.)

You can display the self-diagnostic result, error code and error flag, and you can even clear the error.

#### 5 Password setting (Set the password to protect FP series program reading and writing functions.)

Password registration and clearing is possible for the FP series password protection function.

## Multiple GT displays can be connected to our FP series PLC.

### GT link function

Up to 32 GT displays can be connected to one PLC unit without communication programs. The same screen operation is possible at a conveyor line or other remote locations, and the number of PLC units can be reduced, cutting the production process costs.

- Notes: 1) Our FP series PLC
- 2) As the number of connected units increases, the response slows down. Check the speed in the actual line.

### Connectivity with multiple PLCs

Up to 31 PLC units can be connected to one GT unit. Progress in multiple production lines can be centrally monitored and controlled via one GT unit.

## Enhanced security with password protection

Password protection and operation security functions protect the data asset in the display unit and control the authorization for operation.

### Password protection function

The screen data upload operation can be restricted by using passwords to protect the data asset in the display unit.

### Operation security function

Up to 64 operators can set individual passwords, and up to 16 levels of restrictions can be set on displays and operations for each part. The registered users and passwords can be changed on the display unit.

## High-efficiency operation with through function

This function allows operators to simultaneously carry out the transfer of screen data of a GT series display and the debugging of our FP series PLC connected to the display.

GT32T1 supports Ethernet connection, which allows the through function to be controlled from a remote location.

## Easy-to-switch language

Conventionally, screens were created for each language. With this new language switching function, data can be registered in multiple languages (up to 16) for each part. The characters can be easily edited with Microsoft Excel® and then imported.

	Japanese	English	Simplified Chinese	Traditional Chinese	Korean
000 SW0	日本語	English	简体中文	繁体中文	한글
000 SW0	ありがとうございます	Thank you	谢谢您	謝謝	고맙습니다
000 SW1	1	1	1	1	1
000 SW2	2	2	2	2	2

## Write device function

This function modifies the PLC data or turns bits on / off according to the PLC status or the screen No. Now four arithmetic operations between devices are also possible.

## Compatible with Windows®7

(Also supports 64-bit version.)

## Compatible with the nine languages for the menu

English  
The menu can be indicated in Japanese, English, Simplified Chinese, Traditional Chinese, Korean, German, Italian, Spanish and French.

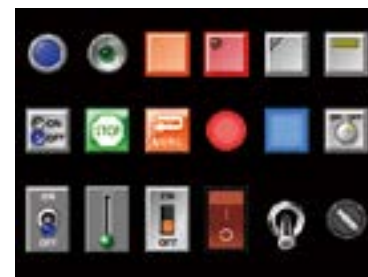

## Just drag-and-drop your original parts to be registered.

You can also register your preset original parts easily by drag-and-drop operations.

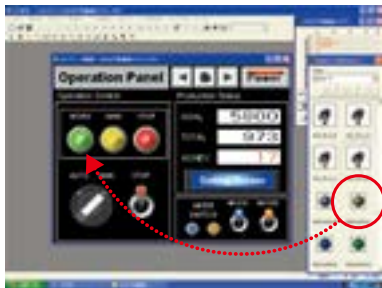

## 4,096 colors 3D design buttons

(for GT05S, GT32T, GT03T-E and GT32T-E)

3D design buttons with higher visibility and operability are available.

## Simply drag-and-drop parts.

You can easily create screens by just dragging parts from the library and dropping them anywhere you want.

## More user-friendly parts libraries

In the previous version, the required parts library had to be selected from the menu every time it was needed. The new version displays a list of parts libraries, making them more user-friendly. You can also freely set the parts library window size.

## Screen copy in bitmap form

You can output screen images in bitmap form and use them in off-the-shelf applications. This is useful for preparing equipment operation manuals.

## Function to turn on / off the display of keyboard parts on the base screen

## Indications of data parts in Japanese, Simplified chinese, Traditional chinese, and Korean

## Now supports installation in a portrait orientation of all GT series models.

\* The 64-bit version is not supported except for Windows® 7.  
\* GTWIN Ver. 2.8 or later is not compatible with Windows® 95, 98, Me or NT.

# GTseries | PLC COMPATIBILITY TABLE

Models listed are the models that have been evaluated as of June, 2013.

\*1: PLCs other than our FP series may be limited in the type of device that can be used and addresses. Please see manual for details.  
 \*2: Communication may not be possible when using RS485 depending on the sending and receiving timing with the other device.  
 \*3: We cannot specify what other device you should use; therefore, please test it using the actual equipment before using.  
 \*4: Available for models equipped with on RS232C port.  
 ○: Direct connection is possible to the CPU unit of the PLC.  
 ○: Connection is possible using the communications unit or a signal conversion cable, etc.  
 (Example: The QJ71C24N or QJ71C24N-R2 calculator link unit is required when using the Mitsubishi Q Series.)  
 X: Connection is not possible  
 Blank: Not evaluated.  
 Refer to the "Technical Support Page" of our website for details, including the latest version of Terminal GTWIN, usable devices and addresses.

## Cables | PLC connection cable

Power supply and communication port	Connection cable	PLC
5 V DC and RS232C	 <p>Part No.: <b>AIGT8142*</b>, PLC connection cable (2 m <b>6.562 ft</b>), 5-pin mini DIN connector — 4 single wires + shielding wire</p>	<b>Our FP series*1</b>
5 V DC and RS422 / RS485	 <p>Part No.: <b>AIGT8152*</b>, PLC connection cable (2 m <b>6.562 ft</b>), 8-pin mini DIN connector — 6 single wires + shielding wire</p>	<b>Mitsubishi Electric FX series</b>
24 V DC and RS232C	 <p>Part No.: <b>AIGT8162</b>, PLC connection cable (2 m <b>6.562 ft</b>), 5-pin mini DIN connector — 3 single wires + shielding wire <b>AIGT8165</b> (5 m <b>16.404 ft</b>) and <b>AIGT8160</b> (10 m <b>32.808 ft</b>) are also available.</p>	<b>Our FP series*1</b>
24 V DC and RS422 / RS485	 <p>Part No.: <b>AIGT8175</b>, PLC connection cable (5 m <b>16.4 ft</b>), 8-pin mini DIN connector — 4 single wires + shielding wire</p>	<b>Mitsubishi Electric FX series</b>
24 V DC and RS232C	 <p>Part No.: <b>AIP81842</b>, PLC connection cable (2 m <b>6.562 ft</b>), 9-pin D-SUB connector — 6 single wires</p>	<b>FP2 / FP2SH COM port, CCU (Computer Communication Unit)</b>

\*1: The **FP7** series PLC can be connected using commercially available single wire cables.

## Options

### ■ Panel face protection sheets

10 sheets in a set (option)

For <b>GT02L / GT02</b>	Part No.: <b>AIG02800</b>
For <b>GT05</b>	Part No.: <b>AIG05800</b>
For <b>GT12</b>	Part No.: <b>AIG12800</b>
For <b>GT32</b>	Part No.: <b>AIG32800</b>

### ■ Waterproof packing

Waterproof packing (for replacement), 10 pieces in a set  
Package includes one piece.

For <b>GT02L / GT02</b>	Part No.: <b>AIG02810</b>
For <b>GT03-E</b>	Part No.: <b>AIG03810E</b>
For <b>GT05</b>	Part No.: <b>AIG05810</b>
For <b>GT12</b>	Part No.: <b>AIG12810</b>
For <b>GT32</b>	Part No.: <b>AIG32810</b>
For <b>GT32-E</b>	Part No.: <b>AIG32810E</b>

\* The waterproof packing for **GT02(L)** is different from the **GT02L** main unit accessory.

### ■ GT02 / GT02L / GT03-E / GT12 mounting parts

5 sets of mounting parts  
(4 parts / set)  
Package includes one set.

Part No.: **AIG12830**

### ■ GT05 / GT32 / GT32-E mounting parts

5 sets of mounting parts  
(2 parts / set)  
Package includes one set.

Part No.: **AIGT28321**  
For **GT05**

Part No.: **AIG32830**  
For **GT32 / GT32-E**

### ■ Spare connector

5 connectors for communication and power supply in a set  
Package includes one set.

Part No.: **AIGT084**

### ■ GT02 / GT03-E / GT05 / GT12 / GT32 / GT32-E backup battery

Part No.: **AFPX-BATT**

Item	GT03M-E		GT03T-E		GT32M-E		GT32T-E		
	RS232C	RS422 / RS485	RS232C	RS422 / RS485	RS232C	RS422 / RS485	RS232C	RS422 / RS485	
Power supply	24 V DC								
Operating voltage range	21.6 to 26.4 V DC								
Power consumption	1.9 W or less		3.1 W or less		4.8 W or less		7.2 W or less		
Power supply unit isolation method					Transformer isolation				
Ambient temperature	-20 to +60 °C <b>-4 to +140 °F</b> (Note 1)								
Ambient humidity	10 to 90 %RH (at +25 °C <b>+77 °F</b> ), No condensation								
Storage temperature	-20 to +60 °C <b>-4 to +140 °F</b>								
Storage humidity	10 to 90 %RH (at +25 °C <b>+77 °F</b> ), No condensation								
Vibration resistance	5 to 8.4 Hz, amplitude 3.5 mm <b>0.138 in</b> , 8.4 to 150 Hz, acceleration 9.8 m/s <sup>2</sup> , 10 sweeps each in X, Y and Z directions (1 octave / min.)								
Shock resistance	147 m/s <sup>2</sup> , 3 times in each of the X, Y and Z directions								
Superposed noise suppression	1,000 V [P-P] or more, pulse width of 50 ns, 1 μs between power supply terminals (by a noise simulator)								
Environmental resistance	IP67 (in the initial stages), Dust-proof and drip-proof from the front of the panel only (Rubber packing is attached to the panel contact surface.) (Note 2)								
Weight	170 g approx.				470 g approx.				
Display	Display device	TFT monochrome LCD		TFT color LCD		TFT monochrome LCD		TFT color LCD	
	Resolution	320 (W) × 240 (H) dots							
	Display color	2 colors (black / white, 16-gray scale)		4,096 colors		2 colors (black / white, 16-gray scale)		4,096 colors	
	Displayable area	70.6 (W) × 52.9 (H) mm <b>2.780 (W) × 2.083 (H) in</b>				115.2 (W) × 86.4 (H) mm <b>4.535 (W) × 3.402 (H) in</b>			
	Backlight	White LED							
Functions	Font types	Fixed ( <b>GTWIN</b> ): 8 × 8, 16 × 8, and 16 × 16 dots, Characters can be displayed in the 1, 2, 4, or 8 times width or height True Type ( <b>GTWIN</b> ): 10 to 240 dots, Windows®: 10 to 240 dots							
	Languages	Japanese, English, Simplified Chinese, Traditional Chinese, Korean, German, Italian, Spanish, French, Turkish, Russian and Vietnames							
	Graphics	Straight lines, Continuous straight lines, Squares, Circles, Ovals, Arcs, Elliptic arcs, Fan shapes, Elliptic fan shapes, Beveled squares, and Bitmaps							
	Number of screens (Note 3)	230 screens approx.		180 screens approx.					
	Screen setting No.	Base screens: No. 0 to 3FF, Key board screens: No. 0 to 7, Login screens: No. 0 to F							
	Part functions	Messages, Lamps, Switches, Function switches, Data, Bar graphs, Clocks, Keyboards, Line graphs, Alarm list, Alarm record, and Custom parts (messages, lamps, switches)							
	Other functions	Recipe, Flow display, Write device, Multiple PLC connection, <b>FP</b> monitor, Language switching, <b>GT</b> link, Operation security, Data logging, and SD recipe (Note 4)							
	Clock function	Displayed by referencing PLC clock		Provided with a built-in clock. (Can also refer to and display a PLC clock.)* Buy the backup battery ( <b>AFPX-BATT</b> ).					
	Backlight brightness adjustment	Can be set on the menu screen, via the <b>GT</b> configuration screen of <b>GTWIN</b> , or via PLC.							
	Contrast adjustment	Not adjustable							
	Buzzer	Installed							
	Automatic communication settings	The communication speed (baud rate) is automatically changed if there is no response from the target equipment.							
	Through function	<b>GT</b> connected between PC and PLC allows PLC to be debugged without a direct connection to a PC.							
Screen creation	Dedicated software should be used. Applicable OS: Windows® 2000 / XP / Vista / 7 (Note 5)								
Touch key resolution	Free layout (8 dots min.)								
Touch key operation force	0.8 N or less								
Touch key life	1 million operations or more (at +25 °C <b>+77 °F</b> )								
COM. port	Communication standard	Conforms to RS232C	Conforms to RS422 / RS485	Conforms to RS232C	Conforms to RS422 / RS485	Conforms to RS232C	Conforms to RS422 / RS485	Conforms to RS232C	Conforms to RS422 / RS485
	External communication conditions	Baud rate: 9,600 bps, 19,200 bps, 38,400 bps, 57,600 bps, and 115,200 bps Data bits: 7 or 8 bits, Parity: None, Odd, Even, Stop bits: 1 bit							
	Protocol	Our <b>FP</b> series supported, General-purpose serial interface supported, and Other companies' PLC supported (Refer to the " <b>PLC COMPATIBILITY TABLE</b> " on p.17 for manufacturers and models.)							
	Connector	Connector terminal block (8 pins)							
Screen data transfer interface	Communication standard	USB1.1							
	Communication conditions with PC								
	Protocol	Our dedicated protocol							
	Connector	USB Mini B				USB TYPE-B			
Ethernet port (Note 6)									
User's memory	Memory	F-ROM							
	Capacity	6 Mbyte		12 Mbyte					
Memory backup	Memory	SRAM							
	Backup battery	Lithium battery (replaceable) <b>AFPX-BATT</b> (Does not include with product.)							

## Conformance to the UL / cUL standards

UL / cUL file No.	E96300
UL standard No.	UL508

- Notes: 1) Please use within a temperature range of -20 to +55 °C **-4 to +131 °F** when horizontally installed and vertically installed in a portrait orientation and when using battery.  
 2) This protective structure condition applies to the front surface of the installed panel. This condition does not guarantee usage in all environments provided by users. When reattaching the panel, replace the waterproof packing.  
 3) The number of screens that can be registered varies according to the registered contents.  
 4) The data logging and SD recipe functions are available with only models equipped with an SD / SDHC memory card slot.  
 5) The 64-bit version is not supported except for Windows® 7.  
 6) Simultaneous USB and Ethernet communications are not possible.

Storage temperature	-20 to +60 °C -4 to +140 °F									
Storage humidity	10 to 85 % RH (at +25 °C +77 °F), No condensation									
Vibration resistance	5 to 8.4 Hz amplitude: 3.5 mm 0.138 in, 8.4 to 150 Hz acceleration 9.8 m/s <sup>2</sup> , 10 sweeps each in X, Y and Z directions (1 octave/min.)					10 to 55 Hz (1 minute cycle): Double amplitude: 0.75 mm 0.030 in, 10 minutes in each of the X, Y, and Z directions				
Shock resistance	147 m/s <sup>2</sup> , 3 times in each of the X, Y and Z directions					98 m/s <sup>2</sup> or more, 4 times in each of the X, Y, and Z directions				
Superposed noise suppression	1,000 V [P-P] or more, pulse width of 50 ns, 1 μs between power supply terminals (by a noise simulator)									
Environmental resistance	IP65 (in the initial stages) (Note 1)		IP67 (in the initial stages) (Note 1)				IP65 (in the initial stages) (Note 1)			
Weight	150 g approx.		170 g approx.				230 g approx.			
Display	Display device		STN monochrome LCD				TFT color LCD			
	Resolution		160 (W) × 64 (H) dots		240 (W) × 96 (H) dots		320 (W) × 240 (H) dots			
	Display color		2 colors (black / white)				4,096 colors			
	Displayable area		88.0 (W) × 35.2 (H) mm 3.465 (W) × 1.386 (H) in		88.5 (W) × 35.4 (H) mm 3.484 (W) × 1.394 (H) in		71.0 (W) × 53.3 (H) mm 2.795 (W) × 2.098 (H) in			
	Backlight		White LED		GT02M: 3-color LED (white / pink / red) GT02G: 3-color LED (green / orange / red)		GT05M: 3-color LED (white / pink / red) GT05G: 3-color LED (green / orange / red)		White LED	
Functions	Font types		Fixed (GTWIN) : 8 × 8, 16 × 8, and 16 × 16 dots. Characters can be displayed in the 1, 2, 4, or 8 times width or height. TrueType (GTWIN): 10 to 64 dots. Windows®: 10 to 64 dots		Fixed (GTWIN) : 8 × 8, 16 × 8, and 16 × 16 dots. Characters can be displayed in the 1, 2, 4, or 8 times width or height. TrueType (GTWIN): 10 to 96 dots		Fixed (GTWIN) : 8 × 8, 16 × 8, and 16 × 16 dots. Characters can be displayed in the 1, 2, 4, or 8 times width or height. TrueType (GTWIN): 10 to 240 dots, Windows®: 10 to 240 dots			
	Languages		Japanese, English, Simplified Chinese, Traditional Chinese, Korean, German, Italian, Spanish, French, Turkish, Russian and Vietnames							
	Graphics		Straight lines, Continuous straight lines, Squares, Circles, Ovals, Arcs, Elliptic arcs, Fan shapes, Elliptic fan shapes, Beveled squares and Bitmaps							
	Number of screens (Note 2)		80 screens approx.		250 screens approx.		240 screens approx.		180 screens approx.	
	Screen setting No.		No. 0 to 3FF							
	Part functions		Messages, Lamps, Switches, Function switches, Data, Bar graphs, Clocks, Keyboards, Line graphs, Alarm list, and Custom parts (messages, lamps, switches)							
	Other functions		Recipe, Flow display, Write device, Language switching, GT link, Operation security, Data logging and SD recipe (Note 3)							
	Clock function		Displayed by referencing PLC clock			Provided with a built-in clock. (Can also refer to and display a PLC clock.) *Buy the backup battery (AFPX-BATT). Note: For the GT02 series, only GT02M2 and GT02G2 have a built-in clock.				
	Contrast adjustment		Contrast can be adjusted by using the touch panel.						Not adjustable	
	Buzzer						Installed			
	Automatic communication settings		The communication speed (baud rate) is automatically changed if there is no response from the target equipment.							
	Through function		GT connected between PC and PLC allows PLC to be debugged without a direct connection to a PC.							
Screen creation		Dedicated software should be used. Applicable OS: Windows® 2000 / XP / Vista / 7 (Note 6)								
Touch key resolution		Free layout (8 dots min.)								
Touch key operation force		0.8 N or less								
Touch key life		1 million operations or more (at +25 °C +77 °F)								
COM. port	Communication standard		Conforms to RS232C		Conforms to RS422 / RS485		Conforms to RS232C		Conforms to RS422 / RS485	
	External communication conditions		Baud rate: 9,600 bps, 19,200 bps, 38,400 bps, 57,600 bps, and 115,200 bps Data bits: 7 or 8 bits, Parity: None, Odd, Even, Stop bits: 1 bit							
	Protocol		Our FP series supported, General-purpose serial interface supported, Other companies' PLC supported (Refer to the "PLC COMPATIBILITY TABLE" on p.17 for manufacturers and models.)							
	Connector		Connector terminal block (8 pins)							
Screen data transfer interface	Communication standard		USB1.1							
	Communication conditions with PC									
	Protocol		Our dedicated protocol							
	Connector		USB Mini B				USB TYPE-B			
Ethernet port (Note 4)										
User's memory	Memory		F-ROM							
	Capacity		704 Kbyte		2 Mbyte		12 Mbyte			
Memory backup	Memory		SRAM (Note 5)							
	Backup battery		Lithium battery (replaceable) AFPX-BATT (Does not include with product.) (Note 5)							

## Conformance to the UL / cUL standards

UL / cUL file No.	E96300
UL standard No.	UL508

- Notes: 1) This protective structure condition applies to the front surface of the installed panel. This condition does not guarantee usage in all environments provided by users. When reattaching the panel, replace the waterproof packing.  
2) The number of screens that can be registered varies according to the registered contents.  
3) The data logging and SD recipe functions are available with only models equipped with an SD / SDHC memory card slot.  
4) Simultaneous USB and Ethernet communications are not possible.  
5) Among GT02 series, available for GT02M2 and GT02G2 only.  
6) The 64-bit version is not supported except for Windows® 7.

## Conformance to the UL / cUL standards

UL / cUL file No.	E96300
UL standard No.	UL508

- Notes: 1) This protective structure condition applies to the front surface of the installed panel. This condition does not guarantee usage in all environments provided by users. When reattaching the panel, replace the waterproof packing.
- 2) The number of screens that can be registered varies according to the registered contents.
- 3) The data logging and SD recipe functions are available with only models equipped with an SD / SDHC memory card slot.
- 4) Simultaneous USB and Ethernet communications are not possible.

- 5) Please use within a temperature range of 0 to +40 °C +32 to +104 °F when horizontally installed and vertically installed in a portrait orientation.
- 6) WAV format (PCM, 8 kHz sampling rate, 16 bits, monaural), Maximum sound data capacity: 512 Kbyte (30 sec, approx.), Maximum registrable number of sound data items: 128
- 7) The unit carries out serial communication data processing at 115.2 kbits / s.
- 8) Communications with external equipment (PLC) are not available.
- 9) The 64-bit version is not supported except for Windows® 7.

The CAD data in the dimensions can be downloaded from our website.
