

Safety Padlocks and Kits

Safety is an essential element of risk mitigation throughout the physical infrastructure. Panduit introduces new long body non-conductive padlocks, designed specifically for lockout/tagout applications to help reduce the risk of electrical hazards while providing high security. All Panduit lockout kits, lockout stations, and the group lockout box include non-conductive padlocks, contributing to the protection of employees from unexpected hazards while meeting safety and regulatory requirements. In addition, Panduit offers high security and laminated steel padlocks for application flexibility. These are part of a comprehensive line of safety and facility identification products to optimize workplace safety and aid in compliance.

NEW! Non-Conductive Lockout Padlocks

Key Features

Benefits

Aluminum body and shackle with non-conductive vinyl cover design	Delivers protection against electrical hazards for maximum safety, specifically in lockout/tagout applications
Long body design	Allows safety message to be displayed on the padlocks in two languages
Available in eight assorted colors	Provides quick visual color identification to enhance safety and security of departments and energy sources
Key retaining	Key cannot be removed from padlock when open, to reduce the risk of losing the key and to ensure that padlock is secure on lockout device
Keying options	Padlocks can be ordered with keying options: keyed-differently, keyed-alike, and master-keyed for flexible key system implementation to accommodate a wide range of lockout applications

Aluminum Compact Padlocks

Key Features

Benefits

Ultra-compact aluminum body with anodized aluminum finish design	Can withstand extreme weather and environmental conditions for improved durability and enhanced corrosion resistance; compact size 1 1/4" x 1 3/8" body (compared to 1 1/2" x 1 5/8" body for the PSL-7 series padlocks)
Available in eight assorted colors	Provides quick visual color identification to enhance safety and security of departments and energy sources
Keying options	Padlocks can be ordered with keying options: keyed-differently, keyed-alike, and master-keyed for flexible key system implementation to accommodate a wide range of lockout applications
Five-pin cylinders	Provides a large number of key change options for increased security and safety

Part Number	Color	Std. Pkg. Qty.
Shackle Height 1.00" (25.4mm)		
PSL-12BL	Black	1
PSL-12BU	Blue	1
PSL-12GR	Green	1
PSL-12OR	Orange	1
PSL-12	Red	1
PSL-12YL	Yellow	1
PSL-12PU	Purple	1
PSL-12BR	Brown	1

Laminated Steel Padlocks

Designed with galvanized layers and hardened steel shackle with double-ball locking mechanism to provide protection from cutting, prying, and rusting for maximum durability and reliability. Laminated steel padlocks are available in six vinyl bumper colors for quick visual identification of departments or energy sources to enhance safety and security.

Part Number	Color	Std. Pkg. Qty.
-------------	-------	----------------

Shackle Height 0.75" (19.3mm)

PSL-6BL	Black	1
PSL-6BU	Blue	1
PSL-6GR	Green	1
PSL-6OR	Orange	1
PSL-6	Red	1
PSL-6YL	Yellow	1

Part Number	Color	Std. Pkg. Qty.
-------------	-------	----------------

Long Shackle Height 2.00" (46.8mm)

PSL-6BL-LS	Black	1
PSL-6BU-LS	Blue	1
PSL-6GR-LS	Green	1
PSL-6OR-LS	Orange	1
PSL-6-LS	Red	1
PSL-6YL-LS	Yellow	1

Harsh Environment Padlocks

Locks are created with a solid brass body with a chrome finish and stainless steel shackle for use in severe weather and environmental conditions.

Part Number	Color	Std. Pkg. Qty.
-------------	-------	----------------

Short Shackle – 1.00" (25.4mm)

PSL-9	Silver	1
-------	--------	---

Part Number	Color	Std. Pkg. Qty.
