RESIDENTIAL INSTALLERS TOOL

**ITEM #
TRF-7090**

**Lifetime
Warranty**

FEATURES

- **3-in-1 Die Set – Crimps F & RJ-45 Connectors for:**
 - **RG-6 Quad-Shield F Connectors**
 - **RG-6 Standard Shield F Connectors**
 - **RJ-45 8 Conductor Modular Connectors**
- **Save Time—No Need to Change Dies or Tools**
- **Lightweight Aluminum Tool Construction 40% Lighter Than Steel Frames**
- **Quick-Release Jaws- Change Dies in Seconds!**
- **Lifetime Frame Warranty**

The new Flyweight Aluminum Frame Series Ratchet Crimp Tools are designed to make connector termination faster and easier. These tools, weighing less than 1 pound, weigh nearly half as much as steel frame models and offers reduced operator fatigue. The "QUICK RELEASE" designs feature quick release slide out jaws for easy on-the-job changing of the dies and come complete with installed die sets. Our standard aluminum frame tool features a conventional screw lock design and come without die sets installed. The crimp pressure is easily adjusted by means of a convenient side mounted wheel. Other features include a safety trigger release, rubberized ergonomic design handles and lifetime frame warranty.

Available is a complete selection of die sets which fit both the quick-release and standard frames.

FIBER OPTIC TERMINATION KIT

An economical solution for fiber termination is offered with the NFK-2000 kit. Housed in a durable ABS case are all the essentials for terminating fiber connectors.

KIT CONTENTS :

- Carbide Scribe
- Syringes
- TFS-1400 Stripper
- A/B Fast Epoxy
- ST Polish Disc
- SC Polish Disc
- Wipe Paper
- TFS-1200 Fiber Scissors
- Fiber Optic Crimp Tool
- 6um Diamond Polish Film
- 1um Diamond Polish Film
- .05um Alum. Oxide polish Film
- Rubber Work Pad
