Notes:

- Ultracompact AC-DC power supply
- Universal input 80-264VAC or 115-370VDC
- Class II power supply with 3kVAC isolation
- Low cost AC/DC power supply
 - Short circuit & over current protected

IEC/EN/UL60950 certified

The new RACO4-SC modules are available with output voltages of 3.3, 5, 9, 12, 15, and 24V, and the

input-to-output isolation is approximately 3kVAC/1min. With a standby consumption of typical 100mW, the mini power supplies are particularly suitable for energy-saving sleep mode and standby applications.

Because of its compact design (height <17 mm), it is a versatile solution for home automation and other similar applications. Complete with an integrated input filter, the series has enhanced EMI performance and complies with EN55032, class B. The mini power supplies are also protected against short circuit with fully automatic restart after the error has been solved. The converters are EN/UL60950-1 certified

Note7: Operation below 10% load will not harm the converter, but specifications may not be met

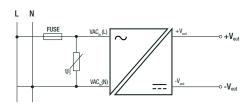

PROTECTIONS			
Parameter		Туре	Value
Short Circuit Protection (SCP)	belo	w 100mΩ	Hiccup mode, automatic recovery
Over Voltage Category			OVCII
Over Current Limit			105% - 155%
Isolation Voltage	I/P to O/P	tested for 1 minute	3kVAC
Isolation Resistance			1GΩ min.
Isolation Capacitance			1000pF typ.
Leakage Current			0.85mA max.

Notes:

Note8: Refer to local safety regulations if input over-current protection is also required. Recommended fuse: slow blow type

Note9: MOV required for 230VAC operation. The Varistor should comply with IEC-61051-2. e.g. EPCOS S14 Series
