

Static Dissipative Green Rubber Mats and Runners 8800 Series

As electronics manufacturing facilities configure workstations to work on lead-free products, 3M is introducing green-colored 3M™ Static Dissipative Rubber Mats and Runners 8800 Series to be used at lead-free work areas. The green color designates that the mat/runner can be used at a work area where lead-free products are being worked on.

The green Static Dissipative Rubber Mats and Runners 8812, 8842 and 88X2 possess the same electrical and physical characteristics as the present 8800 Series of static dissipative mats and runners.
