

Tactile Button - SMD (12mm)

COM-12993 ROHS

DESCRIPTION DOCUMENTS

This is an SMD 12mm square SPST button. What we really like is the large button head and good tactile feel (it 'clicks' really well). This button is great for user input or a good reset button on a PCB, heck, we use this guy on our PicoBoard! As this is an SMD component make sure you are well versed in soldering before attempting to incorporate this button into your project.

SparkFun-Electromechanical > TACTILE-PTH-12MM TACTILE-SMD-12MM
Do try searching: "tactile"
Addendum to self: Do note this is the SMD part. Ouch.

In 2003, CU student Nate Seidle blew a power supply in his dorm room and, in lieu of a way to order easy replacements, decided to start his own company. Since then, SparkFun has been committed to sustainably helping our world achieve electronics literacy from our headquarters in Boulder, Colorado.

No matter your vision, SparkFun's products and resources are designed to make the world of electronics more accessible. In addition to over 2,000 open source components and widgets, SparkFun offers curriculum, training and online tutorials designed to help demystify the wonderful world of embedded electronics. We're here to help you start something.
