

HPC Loudspeaker Patchbays

The HPC Loudspeaker Patchbay features a 19 rack unit loaded with HPC loudspeaker connectors. Available with either 0.250 Faston terminals or 0.187 Faston terminals. One rack unit height versions come with 12 HPC loudspeaker connectors, two rack unit height versions come with 24 HPC loudspeaker connectors. All versions have a rugged cable tie bar, which takes the weight of the cabling away from the connections.

Features and Benefits

- Available in 1RU or 2RU versions
- Available with or without the connectors
- HPC Series connectors are compatible with Neutrik Speakon® connectors
- Cable tie bar takes the weight of the cables off the solder terminations
- Rugged aluminum channel
- Silk-screen designation area makes it easy to relabel channels

Specifications

Panel Materials

Housing: Thermoplastic UL 94V0 rated
 Contacts: Silver-plated over copper alloy
 Frame: Aluminum, black anodized
