

GL4500 Series

ESD Inspection Gloves - Uncoated

ESD inspection gloves are worn when handling ESD susceptible items when cleanliness is a priority.

Transforming Technologies ESD inspection gloves are designed to be worn when handling ESD susceptible items. They are made with a dissipative nylon to reduce charge generation. Uncoated nylon constructions allows for maximum breathability. A seamless fine gauge knit and a finished rolled cuff are designed for comfort. Transforming Technologies' ESD inspection gloves may be laundered for repeated use. Sold in packs of 12 pairs.

Meets or exceeds requirements of ANSI/ESD S20.20 and ANSI/ESD S-6.1.

Features

- Uncoated Finger for Maximum Breathability and Comfort
- Fine gauge Knit Nylon and Carbon
- Finished Rolled Cuff
- Washable

Specifications:

Fabric: Nylon and Conductive Carbon

Cuff: Finished Rolled Cuff

Resistance: 10^6 - 10^8 per ANSI/ESD SP15.1
